CONTAINER TERMINAL
• TUCHKOVO •
CONTRANS

One of the transport and logistics centers in the Moscow region, is the terminal of JSC “Contrans”, which is adjacent to the railway station Tuchkovo.

Due to the fact that the company “Contrans” is outside the Greater Ring of Moscow railway at a distance of 65 km from Moscow ring road, its use does not create difficulties in organizing the movement in Moscow and on access routes, which is one of the conditions of the possibility of functioning transport and logistics centers in Moscow field.

Commercial success of the operation of rail container terminal of JSC “Contrans” in Tuchkovo made up of many components, first of all - the demand for services and the relevance of this complex. Company “Contrans” concluded a number of contractual relationships with shippers and consignees who are interested in the implementation of a permanent traffic. Among the main customers are LG Electronics Rus, whose plant is located 14 kilometers from the terminal Contrans.

CONTRANS

For the processing of large containers in the terminal using the latest material handling equipment — FERRARI reach stackers and FANTUZZI capacity of 45 tons, so you can quickly and efficiently to carry out the processing of containers and storage of up to five tiers.

- The total area of the container area — 3.5 hectares.
- Capacity of container yard is 2700 TEU.
- It is possible to increase the container area to 6.5 hectares.

Refining Terminal JSC “Contrans” for 2010 — 2011 amounted to about 40 000 TEU.

The total area of land owned by a company “Contrans” is 9 hectares.

Equally important is the rail component — namely, the location of the nearest railway station, the distance-delivery cleaning cars. Terminal “Kontrans” is located in close proximity to the station Tuchkovo, distance delivery, cleaning cars is less than 500 meters.

You must also take into account the location of the nearest customs authority. From June 2011 on the territory of SVH JSC “Contrans” works department of customs clearance and customs control, allowing you to quickly carry out customs clearance.

When using any terminal is no less important and the availability of convenient road links. In the 8 km trail runs from the terminal (M1), the Minsk highway, as well as the Large Moscow Ring highway.

Terminal “Contrans” is intended to complete processing of large containers.

Geographical location of the terminal can receive and send containers by rail and road.

Railway access road owned by non-public company “Contrans.” Gridiron consists of two paths with total length of more than 1 km with a total capacity of 72 conventional car that can receive and send the complete trains.

There are threads on the charts stations Himzavodskaya, eastern Nakhodka, Nakhodka, Vladivostok, the first river, Avtovo, Predporotova.

In 01.04.2012 we sent the first container train by route Tuchkovo-Rybniki.

Warehouse of temporary storage (SVH) is an indoor and an outdoor container storage area for containers and vehicles under customs control.

Warehouse is equipped with modern X-ray technique Boarding, weighing equipment, storage racks for batch loads and cargo handling equipment (forklifts).

- The total area of the customs control zone 1.9 hectares.
- Effective volume of covered warehousing warehouse — 516 m³ (shelf storage)
- There is the possibility of expanding the zone of customs control.

JSC “Contrans” provides the following services container terminal:

- receipt and dispatch of loaded and empty containers to the terminal;
- storage of loaded and empty containers;
- organization of trucking loaded and empty containers on the territory of Russia;
- The organization of the railway shipment loaded and empty containers on the territory of Russia and the CIS countries, including the payment of railway rate, and providing a platform for the transport;
- Work with various types of large containers (flatrack containers, open top containers, tank containers, refrigerated containers can be connected to the mains;
- warehousing services.

We invite you to visit our terminal!
